

```
#include <stdio.h>
#include <unistd.h>

int main() {
    FILE *file;
    file = fopen("p2.txt", "w");
    int var = 10;
    fork();
    var = var + 5;
    fprintf(file, "%d\n", var);
    fclose(file) ;
    return 0;
}
```
