

```
#include <stdio.h>
#include <stdlib.h>
#include <unistd.h>
#include <string.h>
#include <fcntl.h>
#include <sys/wait.h>

int main(int argc, char *argv[]) {
    int status = fork();
    if (status == 0) {
        close(STDOUT_FILENO);
        open("./p6.txt", O_CREAT|O_WRONLY|O_TRUNC, S_IRWXU);
        int var = 10;
        printf("%d ", var);
    }
    else {
        int status_wait = wait(NULL);
    }
    return 0;
}
```
